Introduction

The History of Yoga

Yoga originated in India many thousands of years ago and some researchers believe that it could have existed as early as 6000BC-10000BC. It is not possible to put a date on the exact origins of yoga because the ancient yogis were very secretive and selective about whom they passed these teachings onto, therefore the knowledge was traditionally transmitted orally from guru to disciple. The science of yoga was originally developed by the ancient yogis who had a profound understanding of man's essential nature and knew that if man could connect to his essential nature he could find that lasting peace and happiness that he was constantly searching for.

The ancient yogi's realized that to alleviate man's suffering he would need to find a way to live in the world while maintaining peace both within himself and with the world around him. The yogi's discovered that by using techniques that would bring about an integrated state of the body, breath and the mind man would thus discover his real nature and his suffering would be alleviated.

Yoga is thought to have been developed by the Indus Valley civilization about 5000 years ago. Evidence of seals found depicting a figure seated in what resembles a yoga posture in the region of Mohenjo-Daro and Harappa which may suggest that this ancient civilization may have worshipped Shiva. The word yoga first appeared in the oldest sacred texts, the "Rig Veda". The Vedas are a collection of sacred hymns, mantras and rituals used by the Brahmanas (Vedic Priests) and Rishis. From this point in time yoga was documented, refined and developed and many of the practices and beliefs were recorded in the Upanishads and the Bhagavad Gita. It is estimated that between 400BCE and 200AD Sage Patanjali codified the first systematic presentation of yoga and provided a systematic method of attaining Self-Realization through the application of the "Eight Limbs of Yoga".

History of Hatha Yoga

Further developments in yoga came with the introduction of Tantra Yoga where the body was used as the vehicle to achieve enlightenment. This was achieved through the practice of cleansing techniques for the body and the mind and asanas that would keep the body fit and healthy in order to tread the spiritual path.

During the 15th Century Yogi Swatmarama compiled a text named "The Hatha Yoga Pradipika" which is considered to be the oldest surviving text on Hatha Yoga. The text outlines all of the techniques and practices of hatha yoga including asana, pranayama, shatkarma, mudra and bandha and many other important considerations for the yoga practitioner.

Summary

The main aim of yoga is to eliminate human suffering and to lead the aspirant to Self-Realization. The word yoga means "union or communion", it is the union of the individual Self with the universal Self and when this occurs all sense of separation dissolves and one realizes that he and the Divine are one. Our limited consciousness prevents us from realizing our own true nature. Yogic practices provide us with the opportunity to move through the journey of life with ease as we are able to take control of our lives and move in a more positive direction. Yoga is a path of self development which allows us to reach our highest potential as human beings.

Yoga offers us a path that gives us the opportunity to greatly enhance the quality of our lives and provides us with a deeper understanding of the human experience and our relationship to the Divine.

THE YOGA SUTRAS OF PATANJALI

The Eight Limbs of Yoga

The Yoga Sutras of Patanjali were compiled by the Sage Patanjali. They are often termed as the “Eight Limbs of Yoga”. These eight limbs of yoga form a progressive series of steps or disciplines that are undertaken to purify the body and mind which ultimately leads the practitioner to a state of enlightenment. The Yoga Sutras of Patanjali are comprised of 195 aphorisms and is the first systematic work on Yoga and is also regarded as the final authority. Patanjali is considered to be the Father of yoga. These eight limbs form the basis of the teachings of many of the Hatha Yoga schools in the modern world today. These eight steps or limbs are woven into all of the VIYETT teachings and are integrated through many of the subjects outlined in the Yoga Studies Programs and the Diploma of Teacher Training Course.

The Eight Limbs of Yoga are as follows.

1. Yama

These are a set of 5 moral restraints aimed at destroying the lower nature.

2. Niyama

The niyamas form a set of 5 observances aimed at fostering positive qualities.

3. Asana

These are the physical postures of yoga.

4. Pranayama

Pranayama is the conscious control or regulation of the breath.

5. Pratyahara

The withdrawal of the senses from sense objects in order to still the mind in preparation for the next stage.

6. Dharana

Is the practice of developing concentration

7. Dyhana.

Meditation (the practice of “Dharana” leads to the state of meditation)

8. Samadhi.

Super-consciousness.

Victorian Institute of Yoga Education and Teacher Training

Each of these eight steps are built into the course content to allow students to develop a systematic approach to their practice and to gain a broad understanding of all of the components that form a comprehensive yoga practice.

HOW DO THE EIGHT LIMBS OF YOGA CORRESPOND TO MY STUDIES?

LIMB	MEANING	RELATIVE SUBJECTS
1. YAMA	These are a set of 5 moral restraints aimed at destroying the lower nature.	Yogic History Philosophy and Culture. Daily awareness and adherence to the 5 moral codes.
2. NIYAMA	The niyamas form a set of 5 observances aimed at fostering positive qualities.	Yogic History Philosophy and Culture. Daily awareness and adherence to fostering positive qualities.
3. ASANA	These are the physical postures of yoga.	Theory and Practice of Asana (prior to Asana practice Shakarmas should be performed to purify the body and mind in preparation for Asana practice)
4. PRANAYAMA	Pranayama is the conscious control or regulation of the breath.	Theory and Practice of Pranayama, Mudra and Bandha
5. PRATYAHARA	The withdrawal of the senses from sense objects in order to still the mind in preparation for the next stage of Yoga.	Asana, Pranayama, Mudra Banda, Shatkarma, Relaxation and Meditation (all of these disciplines bring about these qualities to varying degrees)
6. DHARANA	Is the practice of developing concentration.	Total absorption and concentration during the practice of Asana, Pranayama, Relaxation and Meditation (all of these disciplines bring about these qualities to varying degrees)
7. DHYANA	Meditation (Meditation is known as the practice of Dhyana).	All Yoga should lead to the state of Meditation. By effectively following the previous six disciplines Meditation will become spontaneous.
8. SAMADHI	Super-consciousness. (Samadhi will be known to the “knower” of Yoga. The aspirant who patiently puts in the required practice using the eight limbs as a “torch” or a guide to move through the barriers of “limited consciousness” to realize the potential of “unlimited consciousness” “super-consciousness.” This is the ultimate goal of Yoga and cannot be found through study, knowledge or any other means but dedication and total surrender.	The state of Samadhi is the culmination of all of the recommended practices to ensure purity of body and mind. Samadhi is the “end” result of your practice and effort. It cannot be achieved through knowledge or study. It is ultimately the “end result” of your personal practice and meditation. Each of these eight limbs are progressively explored and practiced throughout the duration of the course.

TESTIMONIALS

“What People are Saying About The VIYETT Yoga Courses”

Having ‘dabbled’ in yoga for years, I decided to go to the next level to improve my personal practice and develop a greater understanding of all aspects of yoga.

The VIYETT Yoga Studies/Hatha Yoga Practitioner’s Course has given me everything I hoped for and more. In a relaxed and friendly environment, I have been supported and encouraged on my personal yoga journey. The course has been thorough and highly informative. The classes are geared to suit all levels as you participate at your own level of ability. Classes incorporate asana, pranayama, mudra, bandha and relaxation.

I have now completed the course and am so impressed I have decided to go on and complete the Advanced Diploma of Yoga Teaching.

I feel blessed to have found VIYETT.

Namaste.

Collette Saunders

“I find the Advanced Diploma of Yoga Teaching at The Victorian Institute of Yoga Education and Teacher Training to be very informative and stimulating. I am truly inspired by Maya and her wealth of knowledge. I have tried many forms of Yoga practices over the years, but I find Maya’s way of teaching to be just how I would like to teach myself. Thank you for all your energy and smiles Maya.”

Debbie Flintoff-King

“The first time I practiced yoga was 3 years ago, when I was still living in Indonesia. I fell in love with Yoga instantly and wanted to learn everything I could about it. I moved to Australia to study nutritional medicine, and also to continue my journey in yoga. I found the VIYETT Diploma of Yoga Teaching Course balanced my asana practice with the integration of the History and Philosophy of Yoga I gained a much deeper understanding of the practice on the physical and spiritual levels. I also learned a lot about meditation practices. One meditation practice I really enjoy is when we practice the walking meditation and continue onto the beach which is only a 5 minute walk from the centre to continue with our meditation practice. The learning atmosphere at VIYETT is fun, relaxing, yet very informative and inspiring, I find it is the highlight of my week.”

Amanda Soedharma

The warm and friendly staff offer much experience and insight, within a relaxed setting. I am truly fortunate to have found this place, as I embark on my Yogic journey.

Rebecca Dickenson

"After day "one" of the studies, my mind felt clear & refreshed. The following weeks and months into the course has given me a cleansing & purifying experience & continues to do so. A most rewarding journey into oneself and continues to be."

Linda Wilton

The Diploma course has been an amazing journey with a wide range of diverse and interesting subjects. The knowledge gained is deep and transformative. Perhaps most importantly, the teachers at Hampton Yoga Centre teach from the heart and instil within all students a deep respect for yogic traditions and practices. As result, students bring qualities of respect, humility, joy and dedication to their yoga practice. In this way, they are provided with all they need (and more) to teach their future students well.

Sarah Waters

Being a sensitive soul, on a journey of self realisation, finding the right Yoga school to do my Diploma of Yoga Teaching, was not only important for the course content but also to be in an environment where I felt nurtured and at ease.

From the time I attended the VIYETT information session, I knew I had come to the right place. ALL the staff were wonderful, not only the teachers of Yoga but they evidently "lived" their Yoga also.

In an environment that felt spiritual in energy and had a soothing ambience to it, like minded people were also attracted there and I found myself starting my Yoga journey with great teachers in a beautiful surrounding, with the most cherished group of fellow students that I have ever met in my life.

The compliments and positive feedback that I now receive from my own classes is a direct reflection of the great start that I received as a result of attending VIYETT and I feel truly blessed and grateful that i followed my intuition and made the right choice. Eternally grateful - thank you VIYETT and all of the wonderful caring teachers that give it its soul."

About the Course

The Yoga Studies – Hatha Yoga Practitioners course has been designed to allow practitioners of Yoga to receive quality education and training without the need to undertake extensive studies leading to a Yoga Teaching qualification. At VIYETT we understand that not all people seeking education and training in the field of Yoga want to teach Yoga as a profession. Often the need for further studies and training comes about when a student reaches a certain level of maturity in their practice and thus begins a journey to uncover the deeper meaning of Yoga. When the student reaches this level of maturity in their practice they often need guidance and training to assist them in broadening and developing their understanding of Yoga and to help them move forward on their life path.

Yoga is a science of life and a path of personal development. Through the study of yoga one is able to gain deeper insight into life itself and equip oneself with the necessary skills to achieve lifetime goals. The Yoga Studies Course presents yoga as a complete system drawing on the classical teachings and traditions of Hatha Yoga and the ancient traditions of Tantra's esoteric and philosophical teachings Patanjali's eight limbs of yoga are also studied and integrated throughout all practices. Trainees will gain knowledge in both the theoretical and practical aspects of Yogic discipline.

ABOUT THE COURSE

The Victorian Institute of Yoga Education and Teacher Training Course (VIYETT) has been designed to provide trainees with a high level of understanding in relation to the physical, emotional, psychological, spiritual and social responsibilities associated with teaching yoga.

The Diploma of Yoga Teaching is a 1 year Yoga Teacher Training Course. It is an intensive training course covering all of the vital aspects of Yoga. The course is designed to provide trainees with a good understanding of the science and philosophies of yoga and all of the practical disciplines associated with teaching yoga as a profession.

The VIYETT Yoga Teacher Training programs are not limited to one philosophy or one way of thinking, they are based on a number of traditional yogic philosophies which will aid trainees in gaining a broader understanding of the "whole" concept of yoga. Some of the more popular philosophies or traditions that trainees will explore are Patanjali's Asthanga Yoga – The Eight Limbs of Yoga, Samkhya, Tantra, and Vedic Culture.

Each of these traditions are ancient philosophies handed down through the ages providing us with a rich source of knowledge and information whereby we can transform our lives and enrich the lives of those around us. Trainees are encouraged to seek out knowledge from a variety of traditions as this ultimately adds to the wealth of their knowledge and their experience as professional yoga teachers.
